PT Asset Management extends cooperation with Prof. Dr. Stefan Duchateau and team for another five years

Metzingen, 12.02.2026 – PT Asset Management GmbH, fund manager of the highly successful fund family (**PTAM Global Allocation, PTAM Defensiv Portfolio** and **PTAM Global Equity**), has extended its contractual cooperation with its long-standing investment advisors **Prof. Dr. Stefan Duchateau and Raf Vleugels** for a further five years.

"The extension of the cooperation is a strong signal of continuity for us," says Klaus Lehr, Managing Director and shareholder of PT Asset Management GmbH. "Prof. Dr. Duchateau and his team have stood for scientific excellence and stability in the investment process for over a decade."

With Prof. Dr. Duchateau, Giel Maris as a proven expert on the underlying stock selection model and Raf Vleugels (International Sales Manager), Jean-Philippe Demuyne (Sales Belgium NL) and Philippe Guillaume (Sales Belgium FR) the course has been set for successful cooperation in the future.

Prof. Dr. Duchateau – Belgian economics professor and expert in risk management and asset allocation – has been accompanying PTAM as a consultant for over 12 years. With his scientifically sound approach and analytical expertise, he has played a key role in shaping the investment process of the fund family. Over the years, PTAM Global Allocation's innovative, model-based investment approach has earned numerous awards and high recognition from private, institutional investors and rating agencies.
